

Ultrasonic Clam Shell SEALER

FEATURES

- Easy to use. A beginner can use it like a stapler
- Good design. Smart packing
- Safe product. No more staples
- Light to handle. One can weld quickly without lugging around a heavy unit
- Sanitary without anxiety of the rusting from staples
- No fear of being burned as welding is ultrasonic

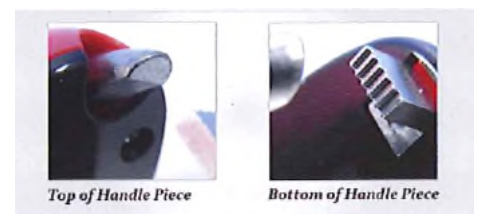

Seal – PSP, OPS, HIPS, PPF, PP, A-PET, and PVC

****Please note: Onpak units can seal PVC but currently, Ouppas cannot.****

OnPak is an ultrasonic clam shell sealer that seals clamshells quickly and safely using ultrasonic waves. It is simple and easy to operate. Just turn on the machine, set the time, and spot weld using the hand set. No warm up time needed.

Easy to operate. Just turn on the unit and place the package to be spot welded between the points of interest and depress. Object will be spot welded via ultrasonic waves.

SPECIFICATIONS	
Power Supply	AC110V/AC120V 50/60Hz
Max Output	20W
Oscillating Frequency	57kHz
Max. Consumption Electric Power	40VA
Effective Welding Area	3 x 6mm
Dimensions	7.0" x 4.9" x 2.1" / 4.8" x 2.1" x 1.1"
Weight	3.5oz. / 7oz.

Update 03/01/13.
