**CORx**  
ANTIMICROBIAL COMPOUND

## CORTECH<sup>USA</sup> MOLDED CELL FURNISHINGS

- Array of color options conducive to the normative environment
- Infused with CORx antimicrobial compound for increased sanitation
- Naturally absorbs sound to facilitate more peaceful environments
- Maintenance free – Never needs to be painted
- Contributes to safe and humane spaces
- Ligature resistant – No dangerous sharp edges or corners
- Resistant to lethal weapon fabrication
- Independently tested for intensive use
- Flame Retardant
- 10 Year Factory Warranty

## TYPICAL STEEL FURNISHINGS

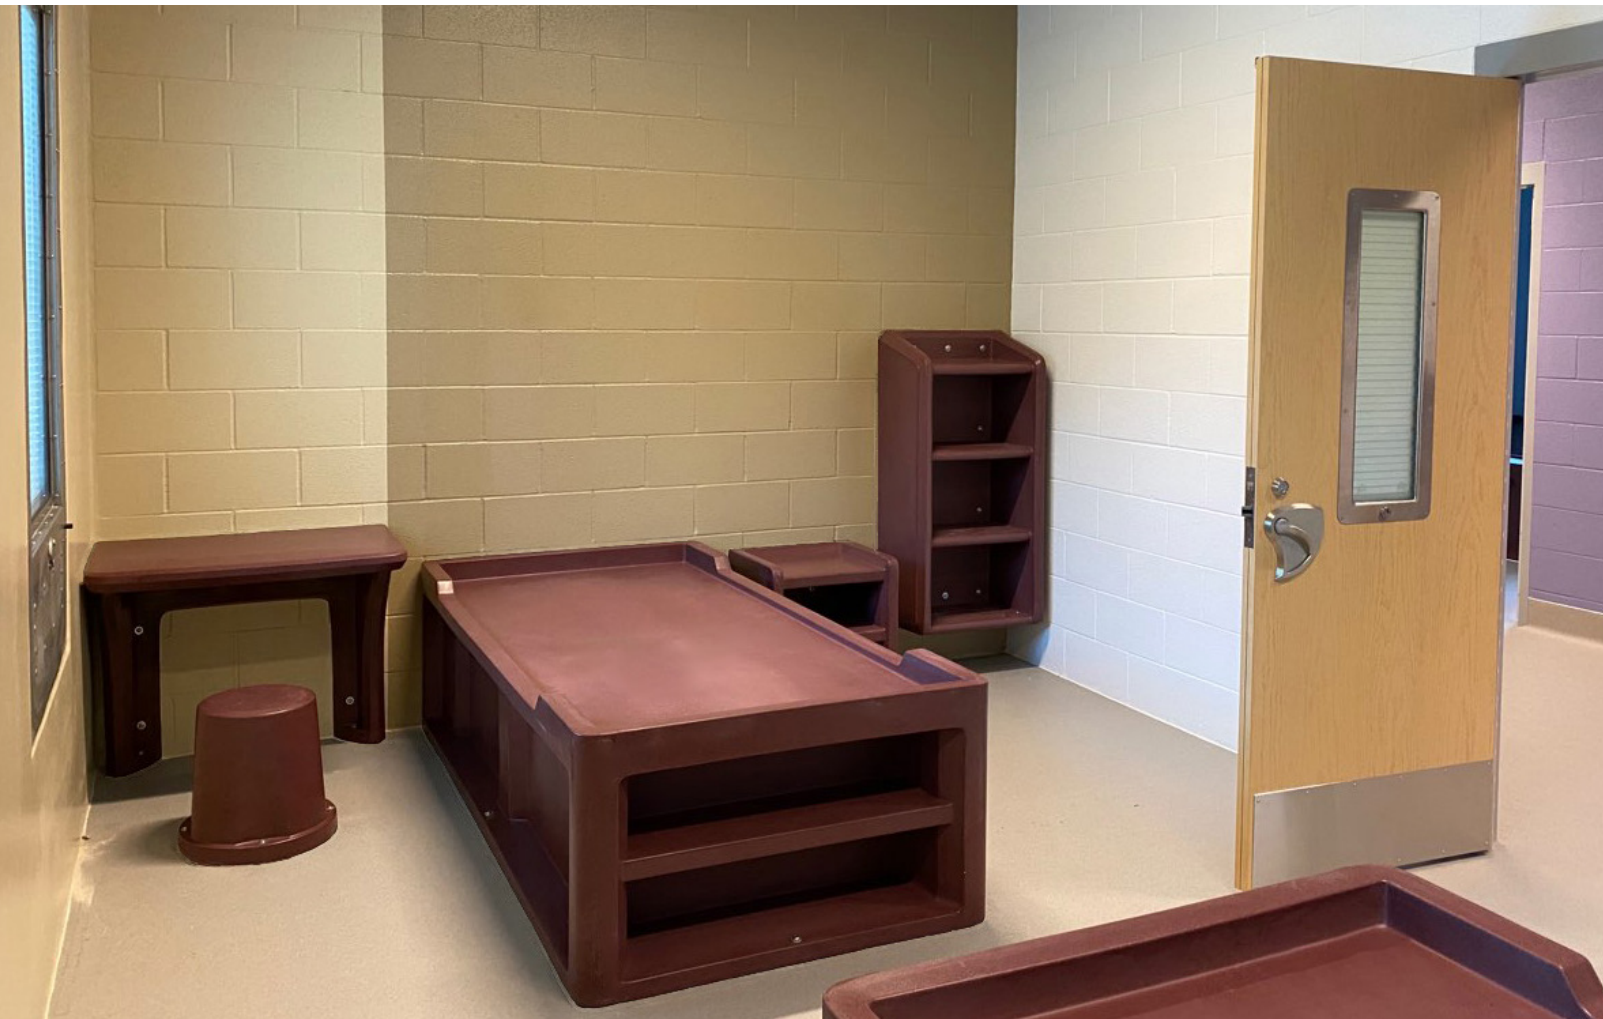

- Produce dangerous, sharp corners and edges
- Limited color options
- Labor and maintenance intensive – Require welding and repainting
- Prone to rust, denting, and chipping
- Ligature prone
- Susceptible to weapon fabrication
- Heavy and expensive to ship and handle

## Advantages of Molded Polyethylene Furnishings

The benefits of molded furnishings over steel have led to a paradigm shift in the planning and design sections of the corrections industry. For decades steel was the dominant material used to furnish jails and prisons, but the advent of molded polymers has brought significant, positive change to the industry. Modern technology provides us with the capability to engineer molded furnishings to be stronger than steel, making them the prime choice for redesigning the correctional environment. Colors can be customized to facilitate normative, rehabilitative environments rather than the grim, conventional settings of the past. The infusion of CORx antimicrobial compound in all of our furnishings helps fend off bacterial growth to facilitate cleaner, safer spaces for all.

# The EnduraPod

Contemporary Living Spaces for the Normative Dormitory Environment

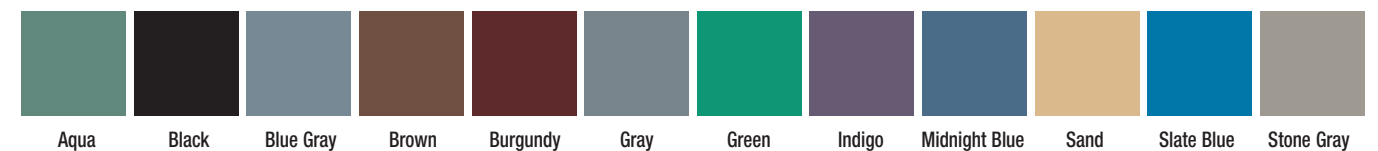

The head/foot panels of The EnduraPod can be customized with shelving, contact Cortech for details.

- Designates private spaces for individuals while freeing up additional room for movement and activities
- Eliminates metal and concrete dividers that can be dangerous and used for weapon fabrication
- Ideal for new construction and renovations
- Variety of arrangements to fit specific needs and layouts of different facilities
- Easy to install
- Lower initial and life cycle costs
- Customizable lengths:  
8 ft. x 4 ft. | 10 ft. x 4 ft. | 12 ft. x 4 ft.

Available in
