

# Global Industrial™ Shoe Covers

708199B

These shoe covers provide carpet, tile, and wood protection from multiple contaminants including dirt, debris, mud, scuff marks, and more. The covers include an elastic closure for added shoe support. Polypropylene construction non-woven, anti-dust, and anti-static for light protection against dry particulates.

**Standard Shoe Covers** includes the triple stitched seam and anti-slip strips for improved user safety. **Skid Resistant Shoe Covers** includes the triple stitched seam and embossed polyethylene sole which improves traction for slip resistance. **Water Resistant Shoe Covers** protects from spills and other wet conditions. Textured polyethylene sole improves traction for slip resistance and the heated sealed seam improves cover strength.
