

Is Your Company Ready To Handle An Emergency Or Disaster?

1. PREPARE

Developing a plan for emergencies and disasters is one of the most important things you can do for your company. Consider how a disaster or emergency, natural or otherwise, could affect your employees. Would your business be able to sustain for any length of time? Experts say that for every dollar spent on preparedness, you may save seven dollars on recovery expenses. Let Global help you gather the necessary products to keep your business running today and the day after.

- Portable Generators
- Batteries
- Leak Diverters
- Flashlights
- Tarps
- Weather Radios
- Sand Bags
- Evacuation Signs
