

SHELVING
Anti-microbial shelving has a simple-to-clean surface that resists mold and bacteria; while the open face design allows accessibility from multiple angles.

FLUSHERS & FAUCETS
Eliminate handle touching with automatic flush valves that activate only when needed. Sensor faucets offer fast and safe operation.

CABINETS
Lockable and secure cabinets with transparent windows keep essential items safe while allowing for clear identification of stored inventory.

STANCHIONS
Connecting stanchions offer yards of simplified traffic control to help maintain order quickly and easily.

CASHIER SHIELDS
Shields act as a barrier between employees and customers. Open slots at the bottom allow for transactions without getting too close.

TWO WAY RADIOS
Keep your staff in constant contact with multi-wavelength communication at distances exceeding 200,000 sq. ft.

FACE PROTECTION
Face protection is a frontline defense for airborne particulates. Ensure your staff and workers feel secure with reliable and resilient face protective gear.

GLOVES
Flexible second skin gloves can prevent transference of microbes from surface areas and frequent touchpoints throughout your facility.

COOLING BANDANAS
Relaxed and reliable facial protection allows safe breathing inside while relieving users from heat stress and humid conditions outside.

CURBSIDE CARTS
Deliver your curbside orders more efficiently, plus provide high visibility and quick 4-way access. Add accessories to customize your cart.

PALLET TRUCKS
Keep your warehouse moving and fully functional with quality material handling products and equipment.

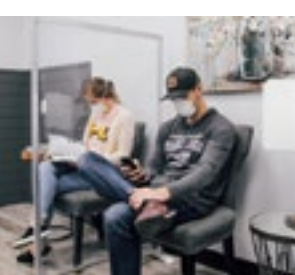

PLASTIC CARTS
Reduce rotational trips for all products and items that demand constant mobility transport. Easy to clean and ready to go.

SANITIZERS
As your business returns and rebounds, be well stocked and ready to go with Global Industrial hand sanitizer and cleaning products.

SPRAYERS & FOGGERS
Reduce disinfecting time in your facility with a variety of sprayers, foggers, and chemical cleaning agents.

AIR FILTERS
Filters help remove particles, dust, and bacteria from the air. Change your filters and help clear the air for your employees and customers.

OUTDOOR TABLES
These tables are perfect for cafés, bistros, restaurants, country clubs, golf courses and more. Powder-coat finish prevents rust and corrosion.

SEATING
Anti-microbial seating is ideal for facilities where a strong upholstered defense is needed to fight against bacteria and microbes.

CLEAR DIVIDERS
Clear barriers can help reduce transfers of airborne microbes in waiting rooms, restaurants and other areas with high rotations of traffic.

The Global Industrial Guide For What's Next

Restore

Harden your facilities to meet new standards and protocols

Return

Create a workplace that is safe for both employees and customers

Rebound

Reclaim your business and your customers

Businesses around the world are adapting to new practices that include reinforcing health and safety measures for all employees as well as social distancing configurations for office spaces.

Global Industrial has taken a close look at cost efficient solutions to establish a better and healthier status for your facility or workplace. These Restore, Return, and Rebound solutions can help you safely re-open a shutdown facility, get your employees back to work, and help rebound your business as the country slowly opens up.

WE CAN SUPPLY THAT.®
1,000,000-PLUS PRODUCTS. INDUSTRIAL STRENGTH SERVICE.

JANITORIAL & SANITATION BEST PRACTICES

Most facilities have enough supplies for a 2-4 week period. With the proposed increase in cleaning and sanitation practices, the recommended stock supply should be at least three months. We've prepared a checklist for you to determine what supplies you need.

- Always wear disposable gloves when cleaning
- Wash down areas with soap and water before applying disinfectant
- Comply with disinfectant instructions
- Do NOT mix bleach with other cleansers

JANITORIAL CHECKLIST

- Buckets/Mop Heads/Floor Signs
- Floor Cleaning Chemicals
- Disinfectant Cleaning Chemicals
- Cleaning Wipes
- Cloth Rags & Wipes
- Sweeping - Push & Lobby Brooms
- Squeegees & Washers
- Trash Containers with Lids & Dollies
- Floor Scrubbers
- Antimicrobial Shelving
- Steel Step Ladders
- HEPA Air Purifier

RACKING & SHELVING

Pre-configured pallet rack starter & add-on units provide high visibility, content storage and organization for warehouses, distribution centers, and more.
