## Protect your business with our pandemic management solutions

Creating a pandemic management plan starts with having essential supplies on hand — and having essential supplies means knowing who to turn to. As a leading supplier of pandemic solutions, Global Industrial is prepared and ready to adapt to ever-changing health standards, helping you maintain a clean and socially distanced facility —

both now and in a post-pandemic world. From personal protective equipment (PPE), such as cloth and disposable face masks, to cleaning and sanitation supplies, such as foggers and scrubbers, our products will help add a layer of protection to your everyday routine.

Prepare your environment for  
fall and winter

With the colder months approaching, it's important to assess your facility and determine what's needed for the upcoming season. Whether you're preparing for the fall cleanup or winterizing your garden and grounds, Global Industrial can help you pave out a plan that covers your future needs in advance. Our selection of outdoor and grounds

maintenance supplies will give you a head start on seasonal preparation, keeping your lawn healthy and your outdoor space thriving well beyond the warmer months. And when the winter does hit, as it inevitably will, equip your facility with cold weather essentials that add extra warmth to your workplace and keep sidewalks and walkways safer for all.

## Grow your business with our core solutions

Running a warehouse or managing an office requires products that streamline and improve your team's workflow. At Global Industrial, we'll help you maximize your space and speed up your productivity with furniture and equipment designed to handle any workload or demand, both safely and efficiently. Take a look around

and consider the areas that need redesigning or enhancing. From pallet trucks and office partitions, to storage units and customizable workbenches, our products will help your facility — and workforce — successfully rebound and rise to the occasion.
